Robert Workman, President and CEO of NOW Inc., added, "We're pleased to announce the highest levels of quarterly revenue, operating profit and EBITDA excluding other costs since early 2015, with working capital turns nearing five and positive free cash flow posted again in the third quarter of 2018. As we move into the seasonally slower fourth quarter due to holidays and budget exhaustion, exacerbated by temporary regional takeaway capacity issues in the Permian and Canada, conditions could portend a softer than normal close to the year. We remain encouraged, however, by the stable land rig count and continued growing inventory of drilled but uncompleted wells, which provide a runway of future work for DNOW and therefore should enable us to achieve higher levels of activity in 2019."

Prior to the earnings conference call a presentation titled "NOW Inc., Third Quarter 2018 Review & Key Takeaways" will be available on the Company's Investor Relations website.

⁽¹⁾ In an effort to provide investors with additional information regarding our results as determined by GAAP, we disclose various non-GAAP financial measures in our quarterly earnings press releases and other public disclosures. The non-GAAP financial measures include: (i) earnings before interest, taxes, depreciation and amortization (EBITDA) excluding other costs, (ii) net income (loss) excluding other costs and (iii) diluted earnings (loss) per share excluding other costs. Each of these financial measures excludes the impact of certain other costs and therefore has not been calculated in accordance with GAAP. A reconciliation of each of these non-GAAP financial measures to its most comparable GAAP financial measure is included in the schedules herein.

- (2) Other costs includes severance expenses and accelerated debt issuance costs, which are included in operating profit (loss) and other expense, respectively.
- (3) EBITDA % excluding other costs is defined as EBITDA excluding other costs divided by Revenue.
- (4) Other costs, net of tax, for the three and nine months ended September 30, 2018, included a benefit of \$3 million and \$9 million, after tax, respectively, from changes in the valuation allowance recorded against the Company's deferred tax assets; as well as, nil and \$1 million, respectively, after tax, in severance expenses and accelerated debt issuance costs, which are included in operating profit (loss) and other expense, respectively. The Company has excluded the impact of a \$9 million tax charge related to the Tax Cuts and Jobs Act and a \$4 million tax charge related to the write-off of a previously recognized deferred tax asset on its valuation allowance in computing net income (loss) excluding other costs for the nine months ended September 30, 2018.
- (5) Totals may not foot due to rounding.
